PROFILE

I am a computer engineering student at King Mongkut's Institute of Technology Ladkrabang. I am interested in software development and innovations that will make everything easier. I want to learn how to work as a software developer in a real company. I intended to develop my skills and learn something new every day from your company.

SKILLS

ReactJS, JavaScript, HTML/CSS, Python, Django, Flask, Keras

C/C++, Java, R, C#, SQL, ARM Assembly, Arduino, Git

PROJECTS

Personal Website

This website is about me and my projects   **Github**
- JavaScript, HTML/CSS (ReactJS) for UI
- Github Pages for hosting

Dogify

Dogify is a dog breed classification website   **Github**
- JavaScript, HTML/CSS (ReactJS) for Front-End
- Python (Flask) for Back-End
