PROFILE

I am a third year computer engineering student at King Mongkut's Institute of Technology Ladkrabang. I am interested in software development and innovations that will make everything easier.
I want to learn how to work as a software developer in a real company.
I intended to develop my skills and learn something new every day from your company.

SKILLS

ReactJS, JavaScript, HTML/CSS, Python, Django, Flask, Keras
C/C++, Java, R, C#, SQL, ARM Assembly, Arduino, Git

PROJECTS

Personal Website

This website is about me and my projects   Github
- ReactJS(JavaScript, HTML/CSS) for UI
- Github Pages for hosting

Dogify

Dogify is a dog breed classification website   Github   Demo
- ReactJS(JavaScript, HTML/CSS) for Front-End
- Flask(Python) for Back-End
- Keras(Python) for CNN model

Hostdogs

Hostdogs is a website about dog adoption   Github
- ReactJS(JavaScript, HTML/CSS) for Front-End
- Django(Python) for Back-End

Car Parking

Desktop Application for car deposit   Github   Demo
- Java for Front-End and Back-End

Ninninger

Ninninger is a 2D video game   Github   Demo
- C/C++ (SFML)

EDUCATION

2019 - Present

King Mongkut's Institute of Technology Ladkrabang

Computer Engineering | GPA 3.62

Relevant Coursework
- Object Oriented Programming, Data Structures and Algorithm, Software Development Processes, Software Architecture and Design, Deep Learning

2012 - 2018

Phatthalung School

High School Diploma | GPA 3.82
